

CIT Relay & Switch Offers Customizable Sealed, Illuminated Anti-Vandal Switches

CIT Relay & Switch provides a wide range of sealed, illuminated anti-vandal switches from 10mm to 40mm. Available with dot or ring illumination, these switches can be custom laser-printed to meet specific design needs.

Choose from stainless steel, nickel, or anodized aluminum finishes in black, red, yellow, green, or blue. Bi-color illumination is also available. Durable and splash-proof, these switches are built to withstand harsh environments while offering endless customization options.

Contact CIT today to create your custom anti-vandal switch solution.

Pricing varies based on configuration and volume. Contact CIT Relay & Switch for current lead times.

CIT Relay & Switch manufactures a wide range of relays and switches for automotive, telecom, security, industrial, and audio applications in thru-hole, panel, and surface mount options. Products are supported globally through an extensive distributor and representative network.
