

CIT Relay & Switch Introduces IP67 VM3S Series Snap-Action Switches

CIT Relay & Switch now offers the **miniature VM3S Series** sealed snap-action switches, **UL/cUL recognized** and designed for versatility and durability. Available in **SPST (NO or NC)** or **SPDT** configurations, the VM3S features multiple actuator options including pin plunger, hinge levers (standard, short, or long), roller, and simulated roller.

Termination choices include **.110" quick connect** or **300mm UL 1015 20AWG wire**. Contact materials are available in **silver or gold over silver**, with operating force options of **180gF or 300gF**. A wide range of electrical ratings and full customization make the VM3S ideal for tailored applications.

Pricing and lead times vary based on options and volume. Contact CIT Relay & Switch for samples, quotes, and technical support.

CIT Relay & Switch manufactures a comprehensive range of **electromechanical relays, solid-state relays, and electromechanical switches** for a variety of industries, including **automotive, telecom, security, industrial, audio, medical, consumer electronics, transportation, and instrumentation**. Available in thru-hole, panel mount, and surface mount configurations, our products are backed by a global network of distributors and sales representatives, ensuring reliable support and delivery worldwide.
