## CIT Relay & Switch Introduces High-Performance Latching Relays

**Minneapolis, Minnesota** – CIT Relay & Switch is pleased to announce the addition of two robust latching relay series to its product lineup: the L115F1 and L114 Series. The L115F1 Series offers a high switching capacity of up to 50 amps, while the L114 Series handles up to 16 amps. Both series are UL/cUL approved and engineered for durability, with excellent shock and vibration resistance for demanding environments.

The L115F1 features a single coil design. The L114 Series is available in both single and dual coil configurations, offering flexibility for a variety of energy-efficient applications. Both relay series come standard with a UL F-class insulation rating.

Pricing varies based on selected options and order volume. For availability and lead time details, please contact CIT Relay & Switch directly.

CIT Relay & Switch manufactures a comprehensive range of **electromechanical relays, solid-state relays, and electromechanical switches** for a variety of industries, including **automotive, telecom, security, industrial, audio, medical, consumer electronics, transportation, and instrumentation**. Available in thru-hole, panel mount, and surface mount configurations, our products are backed by a global network of distributors and sales representatives, ensuring reliable support and delivery worldwide.
