

CIT Relay & Switch Expands Line with Three New IP67 Sub-Miniature Sealed Switch Series

Minneapolis, Minnesota – CIT Relay & Switch has expanded its sealed switch offering with three new IP67-rated sub-miniature series: slide, toggle, and rocker switches—engineered for reliability in harsh environments.

The **SMS Series** slide switch features single or double pole configurations and offers termination options including standard PC pin or horizontal right-angle mount.

The **CST Series** toggle switch includes gold-plated contacts, single or double pole options, and a compact sub-miniature footprint with vertical or horizontal mounting styles.

The **CSR Series** rocker switch is available with lever or rocker actuators and SPST or DPST functionality. Termination options include standard PC pin, vertical, or horizontal right-angle configurations.

Typical lead time is 6–8 weeks. Pricing varies based on selected options.

Contact CIT Relay & Switch for samples and a custom quote to meet your sealed switch requirements.

CIT Relay & Switch manufactures a comprehensive range of **electromechanical relays, solid-state relays, and electromechanical switches** for a variety of industries, including **automotive, telecom, security, industrial, audio, medical, consumer electronics, transportation, and instrumentation**. Available in thru-hole, panel mount, and surface mount configurations, our products are backed by a global network of distributors and sales representatives, ensuring reliable support and delivery worldwide.
